

Oakridge Products Inc

Oakridge Products, Inc. designs and manufactures innovative products designed to bring value, utility and better living to a worldwide community.

Located along the Wasatch Mountains north of Salt Lake City, Utah, Oakridge Products is owned and managed by experienced technical and business professionals.

Oakridge Products focuses on the following:

In-house Research and Design. Oakridge Products designs, patents, sells and distributes its own proprietary products in a variety of consumer markets. Our pipeline always has numerous projects for sale and in development.

Joint-venture market execution. Are you an inventor with a novel consumer product, but lack the ability to fund and execute manufacturing and marketing operation? Oakridge Products wants to talk to you about how a joint-venture agreement could benefit you. We are experienced in sourcing, manufacturing and executing a go-to-market strategy. Contact us today and see how we can help make your product idea or invention a household name.

On-shore marketing of off-shore products. Are you a foreign company with innovative products you wish to introduce to North American markets? Oakridge Products's overseas partners look to Oakridge Products to manage and service customer accounts in North America on their behalf. Oakridge professionals have represented successful foreign companies for over 25 years.

Interested in becoming a Oakridge Products Reseller? Oakridge Products distributes innovative items nationally and internationally to leading retailers.
